	41%	59%	7%	40%	60%	8%	39%	61%	8%

### Summary for 2024 results:

- Trafalgar’s 2024 results were down on 2023 results due to higher needs in the cohort. Additionally, there were 11 new joiners during the 2023-24 academic year, most of whom were EAL and had previously lived outside of UK so had not followed the UK national curriculum.
- Despite this, Trafalgar Federation was above the 2024 national averages in all subjects.
- In all subjects, pupils met or were above the targeted EXS.
- In Reading, Writing and SPaG, pupils met or were above the targeted GDS.
- Nationally, attainment increased marginally in Reading and Writing compared to 2023, but remained the same in Maths and SPaG.
